General Information

2

Read these instructions carefully under all circumstance and follow all the instructions listed. You will guarantee the reliable operation and a long life expectancy of your projection clock radio in this way. Always keep these instructions at hand, close to your projection clock radio. In the event that you transfer ownership of this projection clock radio please provide these instructions to the new owner.

Purpose of use

- This device is intended for personal use only. It is not intended for commercial use in a heavy industry environment. Use under extreme environmental conditions can result in damage to your device.
- This device is only suitable for using in dry, internal rooms.

Included in the box

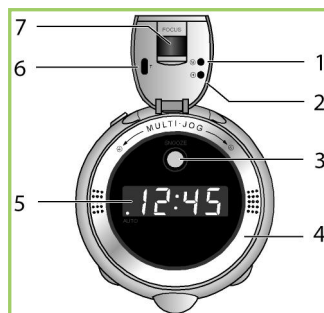

Check that nothing is missing from the packaging and inform us of any missing party within 14 days after purchase. The delivery of the projection clock you have purchased includes:

- Projection clock
- Documentation

Safety Instructions

4

Electrical devices do not belong in the hands of children!

Do not let children use electrical devices unattended. Batteries endanger life if swallowed. For these reasons, keep the unit and batteries out of reach of children. If a battery is swallowed, please obtain immediate medical assistance.

Also, keep the plastic packaging out of reach of children to avoid danger of suffocation.

Setting the product up safely

Choose a flat, firm surface to set the product on. Make sure that

- the ventilation slots are uncovered so as to ensure there is adequate ventilation (10 cm distance at least from a wall).
- no foreign bodies or fluids get into the unit
- the unit does not get into contact with dripping water, splash water or humidity.
- the device is not in direct sunlight.
- there are no direct heat sources (e.g. heaters) that could affect the device.
- no objects filled with liquid, such as vases, are positioned on the device.

Rep. Ireland 1 800 992 508
Web Support www.medion.co.uk
Model Number 82069

- no open fire sources, such as candles, are placed on or near the unit.

Keep the mains connections accessible

Connect the unit to an easily accessible power socket (230V ~ 50 Hz) close to the unit. In case the unit has to be disconnected quickly, the plug has to be within easy reach.

To avoid tripping hazards, please avoid using extension cables.

Handling batteries properly

- The device uses one 9V block battery size 6F22/6LR61/AM-6 as a backup battery.
- Before inserting the battery, check whether the contacts in the device and batteries are clean and, if necessary, clean them.
- Only use new batteries.
- Always change the complete set of batteries.
- Do not use rechargeable batteries.
- Never try to recharge normal batteries. There is a risk of an explosion!
- Store batteries in a cool, dry location. Direct strong heat can damage the batteries. Therefore never expose them to sources of heat (e.g. radiators) or direct sunlight.
- Never short-circuit the batteries.
- Never throw batteries into a fire.
- Immediately remove leaking batteries from the device. Clean the contacts before inserting new batteries. There is a risk of corrosion due to battery acid!

Do not carry out repairs

In case the power supply cord or the unit is damaged, pull out the AC mains plug immediately.

To avoid hazards, under no circumstances attempt to open or repair the unit yourself. There is danger of electric shock!

Refer all servicing to our Service Centre or to another qualified workshop.

When absent for a long period of time or during a thunderstorm, pull out the AC mains plug.

It may be that an electronic discharge has taken place if the device demonstrates disruptions to functions. Remove the mains plug from the mains and take out the batteries in this case. Then, replace the batteries and reconnect the device to the mains. The device will be restored to its previous status in this way.

10

Cleaning the unit

Always disconnect the AC mains plug before cleaning the unit. To clean the unit, only use a moistened, soft cloth. Do not apply chemical solvents or cleaning agents, as they may damage the surface and/or labelling of the unit.

Setting up

5

Power connection

The mains plug serves to operate the projection function and the clock with display itself. For backup purposes the device runs with one 9V block battery (not included). In case of a power interruption the set time will remain in the device's memory so there is no need to re-set the time afterwards.

- ▶ Plug the mains plug into a well accessible 230 V ~ 50 Hz socket.

Inserting the batteries

- ▶ Press the clip on the cover of the battery compartment down and remove it.
- ▶ Insert a 9 V battery (6F22/6LR61/AM-6) as shown on the back wall of the battery compartment. Pay attention to polarity.
- ▶ Close the battery compartment.

Remove the battery from the device if you are not using the device for a longer period.

Using the Alarm Clock

6

Setting the clock

- ▶ Set the switch **SETTING** to the position **"TIME"**. Rotate the Multi-Jog anti-clockwise to set the minutes, clockwise to set the hours.
- ▶ Once the time is set, move the switch **SETTING** to the position **"RUN"** to complete time setting.

Setting the projection clock

- ▶ To turn on the projection permanently, move the **PROJECTION** switch to the position **ON**; switch the projection off by moving it back to **OFF**. The projection will automatically start at the time you have set the alarm, regardless of whether the projection is set on or off.
- ▶ Set the hours by pressing simultaneously the **HOUR** button and the **TIME** button. Keep them pressed until the hour digits are displayed.
- ▶ Set the minutes by pressing simultaneously the **MINUTE** button and the **TIME** button. Keep them pressed until the minute digits are displayed.

Focus

- ▶ To adjust the projection clock focus, rotate the **FOCUS** dial until the projector's time is clearly shown on the ceiling or wall.
- ▶ The ideal projection distance is 1 – 2 metres.
After you have adjusted the focus control, the projection cannot be pushed back into its compartment as the focus will be protruding. Therefore please ensure to re-set the focus back to the original position before placing it into its compartment.

Setting the alarm time

- ▶ Set the switch **SETTING** to the position „**ALM**“. Rotate the Multi-Jog anti-clockwise to set the minutes, clockwise to set the hours.
- ▶ Once the time is set, move the switch **SETTING** to the position „**RUN**“ to complete time setting.

Radio

- ▶ Set the switch **ON/AUTO/OFF** to position „**ON**“.
- ▶ Set the **AM/FM BAND** switch to the desired waveband.
- ▶ Tune to the desired radio station with **TUNING**.
- ▶ To obtain better FM reception, lay out the FM Antenna wire to its full extension.
- ▶ The radio can be switched off by setting **ON/AUTO/OFF** to the „**OFF**“ position.

Activating the alarm

The alarm can be activated by setting the switch **ON/AUTO/OFF** to the "AUTO" position.

- ▶ Waking by radio: Tune on a station and set the volume to the desired level. The radio will switch on at the selected alarm time.
- ▶ Waking by buzzer: Slide the **VOLUME** knob to the position "BUZZ" until you hear a "click" sound. The alarm will be activated with a buzzer sound at the selected time.

Snooze function

The alarm can be interrupted for 9 minutes by pressing the **SNOOZE** button. After that time the radio or alarm buzz will sound again.

Switching off the alarm

To switch off the alarm, set the **ON/AUTO/OFF** switch to the "OFF" position.

Sleep timer operation

This alarm clock is equipped with a sleep timer function which will switch off the radio automatically after a preselected period from 1 hour 59 minutes to 1 minute.

- ▶ Press the button **SLEEP**. Rotate the dial anti-clockwise to set the desired time (from 1 hrs 59 mins down to 1 min). Rotate the dial clockwise to set the fixed time 1 hrs 59 mins.

Web Support www.medion.co.uk
Model Number 82069

- ▶ After the preselected time has elapsed, the radio will switch off automatically. To switch the radio off before the time has elapsed, press the **SNOOZE** button.

Maintenance

7

The lifespan of the device can be extended by the following means:

- Before cleaning, always remove the power plug and all connecting cables.
- Do not use any solvents, corrosive or gaseous cleaning agents. Clean the device with a soft, lint-free cloth. Ensure that no water droplets remain on the screen. Water can cause permanent discoloration.
- Please keep the packaging material well and use it exclusively to transport the device.

There are no user-serviceable or user-cleanable parts inside the device.

Recycling

8

Your device is packaged to protect it against damage during transportation. The packaging is manufactured from materials that can be sent to a specialist recycling facility and disposed of in an environmentally-friendly way.

At the end of its life, the appliance must not be disposed of in household rubbish. Enquire about the options for environmentally-friendly disposal.

Do not dispose of used batteries in the household rubbish! They must be deposited at a collection point for used batteries.
